

**Vision**

Compassionate, quality healthcare for all Canadians, in a system advanced by technology, innovation, and a rich understanding of our healthcare history.

**Mission**

To advance a compassionate healthcare system by investing in leaders, convening stakeholders, supporting research and funding innovative projects. Our work supports and learns from our rich history of healthcare.

**Core Strength**

Developing health system leaders, grounded in compassionate care and able to recognize and harness the opportunities of today's health system transformation to ensure compassion with the benefits of technology.

**AMS Healthcare Commitments 2023-2028**

- Build out Fellowships as the core offering for AMS Healthcare
- Focus Granting in Compassion and Artificial Intelligence
- Build and deliver on a strategic partnership plan to amplify AMS Healthcare impact and value
- Demonstrate visible leadership through convening
- Understand our rich healthcare history
- Evaluate all our programs for impact and value

AMS Healthcare will focus in helping to build and support a cadre of health system leadership committed to embedding the value of compassionate care in health system innovation and digital health revolution. This includes advancing the value of compassionate care entwined in how we educate and support health professionals and leaders throughout their careers. Also, how we continually innovate care delivery while keeping the key tenet of compassionate care at the core. And we will use our convening capability to build and amplify the influence of this community of commitment and practice.

AMS Healthcare will focus on achieving measurable impact and value to the healthcare system by using its position, reputation, networks and resources to focus on building health leadership able to excel in a rapidly evolving system of care.

**The Quintuple Aim**

In support of aim-based impact, AMS Healthcare will set expectations and establish measurement criteria and accountabilities across all of its programs and services.

**Track our progress**

We will hold ourselves accountable for what we do and how we do it by measuring inputs, activities and outputs of our work and investments. This includes planned program reviews in priority areas (History of Healthcare, Compassion/Artificial Intelligence).

**Inform our strategies**

We will use data from tracking our progress, as well as any additional evidence or research to measure our impact, adjust course and understand how and why we have succeeded or failed.

**Contribute to the field**

We will engage in knowledge mobilization and collaborate with partners to further the mission of AMS Healthcare.
